Current or Past Volunteer/Work Experience: In the past I have volunteered at our local Senior Center, to prepare and serve community meals. I have volunteered at the Elementary School to help with our back pack program. Currently I am the Program Manager for Cowlitz Elders. I am always networking and searching different services to target their needs. I am dedicated and spot on when it comes to helping people.

Please tell us about three issues facing the elderly and younger disabled adults that you are particularly interested in.

I am interested in establishing funding for an adult day health center, where Elders can go for health wellness as well as activities, funding for prescriptions, More CHR's to monitor Elders for preventiveness.

Continued on other side

for younger Adults with disabilities I would like to see some kind of job support and or mentors to stay with the person consistently until that adult is able to perform the proper functions for a position. I think their are a lot of resources, however it is finding them and making them stick and work. I have an Autistic Nephew who is now 20 and out of school because it has ended. I am concerned he will be lost in the cracks.

Do you have other abilities and talents that you would enjoy contributing to the Council (public speaking, writing, researching, event planning)?

I have several abilities and would be willing to contribute in any area needed.
