Subject: FW: Hazard Mitigation Plan - Lewis County PDM19 (Contract Cost Share %'s)
Date: Monday, September 13, 2021 5:16:50 PM

Hello Rieva,

Please see below the e-mail chain with the State in regards to the Hazard Mitigation Award Letter change. Please feel free to add this e-mail as an attachment to the Resolution.

Project costs indicate a \$0.01 difference in the federal contribution. Actual costs are \$145,173.83, a \$0.01 increase from the original. This indication has been noted by both the State of Washington Military Department and also the Federal Emergency Management Agency (FEMA).

Feel free to make any changes and I'll be sure to note it our end. Please let me know if you have any questions.

Thanks,

Erika Katt, MPA

Subject: RE: Hazard Mitigation Plan - Lewis County PDM19 (Contract Cost Share %'s)

Hello Erika,

I have confirmed with FEMA that the data in eGrants system and on the Award Letter cannot be changed or edited. Moving forward with their figures, the contract reflects the correct numbers however if you use the long numbers, they will reflect this table:

Award Letter	% in eGrants
\$ 145,173.83	7499.96586%
\$ 48,392.17	2500.03461%
\$ 193,566.00	10000.00047%

Please use these percentages in your financial tracking and I will as well.

Thank you.

Best Regards,

Tammi Garofalo

Subject: RE: Hazard Mitigation Plan

Hello Erika,

I'm just returning to work today, but will not be working full days.

I've also communicated with Ryan about the cost shares being off by \$0.67 on the Award Letter and in eGrants. I'm checking with FEMA to have them update it. This may cause a change on the contract and I will let you know as soon as I hear back. I've already reached out to them.

Since we've received the award letter, you may begin finding a contractor.

Thank you.

Best Regards,

Tammi Garofalo
