17.05.040 Project permit application type.

- (1) Project permit applications are categorized as one of five types described below. Tables 17.05-1 and 17.05-2 specify various permits that fall within the categories and the methods for processing the various project permits.
 - (a) - (d) *[No change]*
 - (e) Type V applications are actions that require a public hearing before the Planning Commission and a decision by the Board of County Commissioners. The process for the amendments is articulated in Chapter 17.12 LCC, though noticing requirements are included within this section.
 - (i) Project-specific actions include modifications to development regulations, the comprehensive plan, or the zoning map that affect an individual or smaller group of parcels. Project-specific amendments are typically sought by an individual property owner or group of owners for their own benefit. The applications require public notice on the site and for neighbors and a quasi-judicial public hearing before the planning commission.
 - (ii) Nonproject legislative actions include modifications to development regulations, the comprehensive plan, or zoning map that affect larger groups of parcels. ~~The process for the amendments is articulated in Chapter 17.12 LCC, though noticing requirements are included within this section.~~ Nonproject legislative actions are typically sought by the county to promote a public rather than an individual benefit.
