

APPLICATION CRITERIA

Purpose

Counties must consult cities, towns, port districts, and associate development organizations in order to disburse funds. As per RCW 82.14.370 the funds may only be used to:

- finance “public facilities” that facilitate the creation or the retention of business and jobs
- finance personnel in the office of a county, port district, or associate development organization that facilitate the creation or the retention of business and jobs

Public Facilities Definition

As per RCW 82.14.370 the public facility must be listed under the county economic development plan or the capital facilities plan and examples are included below:

- bridges, roads, railroads, and transportation infrastructure
- domestic & industrial water facilities, sanitary sewer facilities, and storm sewer facilities
- research, testing, training, and incubation facilities in innovation partnership zones (RCW 43.330.270)
- electrical facilities, natural gas facilities, telecommunications infrastructure, earth stabilization
- commercial infrastructure, port facilities, buildings, structures

Attorney General’s Office

As per the 2001 opinion of the Washington State Attorney General’s Office the following are uses as defined in the statute:

- capital facilities costs, including acquisition, construction, rehabilitation, alteration, expansion, or improvements of public facilities;
- costs of development and improvement for the public facilities;
- project-specific environmental costs;
- land use and permitting costs;
- costs of site planning and analysis;
- project design, including feasibility and marketing studies and plans, and debt and revenue impact analysis

QUALIFICATIONS

Does Your Project Qualify?

Per RCW 82.14.370 the .09 funds may only be used to:

- finance public facilities that facilitate the creation or the retention of business and jobs
- finance personnel in the office of a county, port district, or associate development organizations that facilitate the creation or the retention of business and jobs

Which Public Facility Is Your Project?

The public facility must be specifically listed under RCW 82.14.370 and listed under the county economic development plan (or capital facilities plan). Please select the criteria which correspond to your project.

☐ Bridges	☒ Domestic water facilities	☐ Research facilities	☐ Electrical facilities	☐ Earth stabilization
☒ Roads	☐ Industrial water facilities	☐ Testing facilities	☐ Natural gas facilities	☐ Buildings
☐ Railroads	☐ Sanitary sewer facilities	☐ Training facilities	☐ Telecommunications infrastructure	☐ Structures
☐ Transportation infrastructure	☐ Storm sewer facilities	☐ Incubation facilities	☐ Commercial infrastructure	☐ Port facilities

How Can The Money Be Used For Your Public Facility Project?

The Washington State Attorney General 2001 No.5 opinion states that the funds for this statute may only be used in the following ways. Please select the criteria which correspond to your project.

☐ project-specific environmental costs	☐ costs of site planning & analysis	☐ land use & permitting costs
☒ capital facilities costs, including acquisition, construction, rehabilitation, alteration, expansion, or improvements of public facilities	☐ project design, including feasibility and marketing studies & plans, and debt & revenue impact analysis	☒ costs of development & improvement for the public facilities

YOUR PROJECT

What is your "Public Facilities" project?

Please provide a brief description of your project in the space below.

To improve the access road, culverts should be installed in four locations to drain low areas in the roadway that collect and pool water and could lead to downslope drainage issues or slides. The estimated cost of installing these culverts is \$78,000. The full length of the access road should be graded and crushed rock should be installed. The estimated cost of re-grading the access road and installing crushed rock is \$289,000.

How Will This Project Create Or Retain Business Or Jobs?

"Jobs" are defined by the .09 advisory committee as employment that produces products and services and exports products and services outside of Lewis County that results in new money coming into the community. This is traditionally manufacturing, logistics, and other production facilities. This typically excludes retail and service sectors and other tertiary jobs producers.

Description: This project will allow the Town of Pe Ell to make necessary repairs to our water source intake. Without the critical repairs to the access road, the Town is limited in the repairs that can be made to the intake structure. Without these critical projects being completed the Town of Pe Ell risks the chance of the total loss of our water supply, which will have a direct impact on current businesses and jobs that are offered in our community. Without water supply for the Town of Pe Ell, the Town can not operate or grow economically. This could substantially impact the logging operations for the Weyerhaeuser Pe Ell Tree Farm, state DNR lands, and other private timber owners that our community relies on for the significant portion of revenue for the existing businesses here.

What Will Be The Cost Of The Project?

The County Commission may disburse funds as both grants and loans. No funding will exceed \$600,000 unless it is deemed an extraordinary circumstance by the County Commission. The County negotiates the terms of each award. This may include interest rates or disbursement schedule.

Total Project Cost: \$367,000

Requested Amount: \$200,000

☐ Loan

What Is The Timeline To Completion?

Articulate the projected timeline of for this project as well as its completion date.

Description: No design or procurement processes have begun. We would like to start the project as soon as possible with a proposed completion date of mid to late summer 2022.

COMMITTEE EVALUATION

Committee Use Only Do Not Fill Out

Economic Benefits

The following are metrics that provide an aid in determining which projects may receive funding:

Questions	Metric
Does the proposed project create jobs? How many?	
Does the proposed project retain jobs? How many?	
What is the cost per job created/retained? (divide dollars requested by jobs created and/or retained)	
What is the total number of full time jobs created/retained?	
What is the total number of part time jobs created/retained?	
How many businesses will directly benefit from this project?	

Readiness to Proceed

The following are metrics that we have identified as an aid in determining projects may receive funding:

Questions	Metric
Is this project a "Public Facility" that has an economic development purpose?	Y/N
Have entitlements been obtained and required permits issued/in process?	None/Some/All
Does this project have a clear timeline and scope of work?	Y/N
If this request is approved, what is the amount of match funding that is secured?	
What is the probability of completion from 1-10 (10 indicates a high probability)?
