#### GENERAL INFORMATION

Project Title:	Contamination Reduction and Outreach Plan Implementation
Total Cost:	\$80,000.00
Total Eligible Cost:	\$80,000.00
Ecology Share:	\$60,000.00
Recipient Share:	\$20,000.00
The Effective Date of this Agreement is:	09/01/2019
The Expiration Date of this Agreement is no later than:	06/30/2021
Project Type:	Solid Waste Education

#### Project Short Description:

Lewis County will spend \$80,000 to implement a contamination reduction and outreach plan for recycling and organics programs, and to develop a food waste prevention program in Lewis County.

#### Project Long Description:

The RECIPIENT will present recycling and organics lessons focusing on correct program materials and avoiding contamination to a variety of audiences within the county. One specific partnership is with the Lewis County Head Start Program where quarterly classes will be directed to parents of Head Start students at centers in Toledo, Salkum, Centralia and Chehalis. These parents have regularly scheduled education sessions that are extensions of what their students are learning. Similar lessons will be shared with students, teachers and volunteers in the regular classroom setting at all centers. This educational piece will be the basis for anti-contamination literature and a "recycle right" message for traditional media, social media and signage for both recycling and organics programs.

Agreement No: SWMWRRED-1921-LeCSWU-00024  
Project Title: Contamination Reduction and Outreach Plan Implementation  
Recipient Name: LEWIS COUNTY

A display that explains acceptable organics program materials and correct commingled recycling commodities, requirements for cleanliness and the need to reduce contamination will be created in both English and Spanish at farmers markets, which run May through October. The RECIPIENT will hire a full-time employee to perform these tasks.

The RECIPIENT will also focus on reducing the amount of food being thrown away in Lewis County. At least five short, but informative, videos on the issue of food waste, and how to prevent it, will be filmed using local, notable chefs. Video topics will include, but are not limited to, purchasing food with waste prevention in mind, prepping food to reduce waste, using up all the food purchased (i.e. carrot tops to make pesto, chicken bones to make stock, egg shells to prevent slugs from attacking your plants, etc.), storing food properly to lengthen its life span, and using left-overs when preparing new meals. Videos will be filmed in both English and Spanish, and posted on social media, the county's website and used in presentations. Traditional media may be used to promote where the public can view these videos as well as extend the food waste prevention message. Accompanying literature will be developed in both English and Spanish. Outreach will also take place at local food banks and pantries to share recipes and cooking tips so clients know how to prepare the rations they are receiving, especially if it is fresh produce that will spoil quickly as opposed to canned goods or shelf-stable items.

Overall Goal:

RECIPIENT will reduce contamination in curbside comingled and organics programs by 20 percent and in drop-off programs by 25 percent. RECIPIENT will reduce the amount of food being thrown in the landfill by 20 percent.

ECOLOGY reserves the right to terminate this Agreement if RECIPIENT fails to commence work on the project funded within four (4) months after the effective date of this Agreement, or by any date mutually agreed upon in writing for commencement of work, or the time period defined within the Scope of Work.

ECOLOGY may also elect to suspend performance of the Agreement until ECOLOGY determines the funding insufficiency is resolved. ECOLOGY may exercise any of these options with no notification or restrictions, although ECOLOGY will make a reasonable attempt to provide notice.

In the event of termination or suspension, ECOLOGY will reimburse eligible costs incurred by the RECIPIENT through the effective date of termination or suspension. Reimbursed costs must be agreed to by ECOLOGY and the RECIPIENT. In no event shall ECOLOGY's reimbursement exceed ECOLOGY's total responsibility under the agreement and any amendments. If payments have been discontinued by ECOLOGY due to unavailable funds, the RECIPIENT shall not be obligated to repay monies which had been paid to the RECIPIENT prior to such termination.

RECIPIENT's obligation to continue or complete the work described in this Agreement shall be contingent upon availability of funds by the RECIPIENT's governing body.
