We are opposed to the Centralia UGA expansion and the 1426 S. Scheuber Rd project.

[illegible]

To our Lewis County Commissioners:

We need you to represent us! The Centralia City Council pushed this plan for an expansion of the UGA through, and those of us most affected in the surrounding area had no representatives, as we don't get to vote on council members. We were all notified by mail and a public posting of the Lewis County Planning Commission public hearing for July 26th. In that notice all public was invited to submit testimony written or oral. There were 3 proposals on the agenda, Centralia UGA/S Scheuber Rd project was first. The invitation to provide testimony gave the clear impression that our concerns, questions, and opinions would be taken into consideration.

Unfortunately that was not the case. For oral testimony, 3 minutes were to be given with the time starting after name, address, etc were given. Instead, the timer was started immediately as the person began to speak. As soon as all testimony was done, much to our surprise, the commission announced they would then vote. All voting in favor of the project, the project on the agenda where no commission member lived near and would not be personally affected by. They had city and legal representation. WE are citizens who need representation from YOU, who we voted for! We would appreciate your help on our real concerns as real families of Lewis County, looking out for our futures, not the computer model projection futures.

THANK YOU.

To our Lewis County Commissioners:

We need you to represent us! The Centralia City Council pushed this plan for an expansion of the Urban Growth Area (UGA) through, and those of us most affected in the surrounding area had no one to represent us as we do not vote for Centralia City Council members.

We were all notified by mail and a public posting that the Lewis County Planning Commission would be holding a public hearing on July 26th. In that Notice all interested public was invited to submit testimony, either written or oral or both.

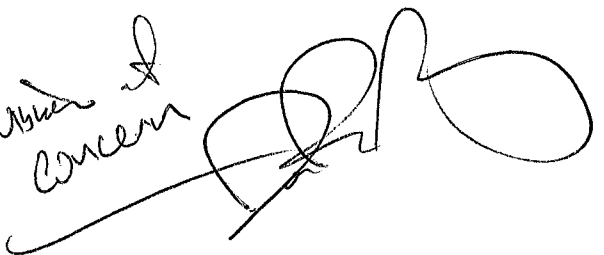

The evening of the hearing, there were 3 proposals for UGA projects, one in Centralia and two in Chehalis. The first to presented was the Centralia UGA/S. Scheuber Rd. project. The invitation to the hearing to provide testimony had given the impression that our concerns, questions, and opinions would be taken into consideration. At the hearing, that did not seem to be the case. Centralia had their representatives present and their lawyer and they made their presentation. Those who had signed up to speak at the hearing had been told they would be given 3 minutes after identifying themselves with name, address and proximity to the proposed UGA. Instead, the time started as soon as those speaking opened their mouth. As soon as the testimonies were complete, much to our surprise, without any discussion or asking for clarification of any concerns, the chair announced that they would begin voting on this proposal. All those on the commission in the room and those attending via Zoom voted for the project. Not one of them lived near the proposed UGA and none would be personally affected by it.

WE, the citizens of Lewis county, need representation from YOU, our county commissioners! We voted by you! We would appreciate your help addressing and considering our concerns. We are not sure you will even see the concerns that were raised at the county planning commission or the emails that were sent in. Please look out for our interests and our futures and not just look at the future through a projected computer model.

All of us who have signed hereafter, either live in the projected UGA, or live in the adjacent area and ~~for~~ will be affected by it. We DO NOT want to see the proposed UGA move forward as we would all be adversely affected by it.

Thank you for your thoughtful consideration.

David J. concern
