General Terms and Conditions

1. Scope of Contractor's Services

The Contractor agrees to provide to the County services, reports, and any material set forth in [Exhibit A](#): Statement of Work and Reporting Requirements during the contract term. No material, labor, or facilities will be furnished by the County unless otherwise provided for in this contract.

2. Accounting and Payment for Contractor Services

Payment to the Contractor for services rendered under this contract shall be as set forth in [Exhibit B](#): Budget, Invoicing and Contractor Payment attached hereto. Unless specifically stated in [Exhibit B](#) or approved in writing in advance by the Contract Officer for this contract, the County will not reimburse the Contractor for any costs or expenses incurred by the Contractor in the performance of this contract.

The Contractor acknowledges that the entire compensation for this contract is specified in [Exhibit B](#) and the Contractor is not entitled to any County benefits including, but not limited to, vacation pay, holiday pay, sick leave pay, medical, dental, or other insurance benefits, or any other rights or privileges afforded to Lewis County employees.

3. Assignment and Subcontracting

Unless otherwise provided for in this contract, no portion of this contract may be assigned or subcontracted to any other individual, firm, or entity without the express and prior written approval of the Contract Officer.

Should the Contractor wish to subcontract, assign or delegate any or all of its rights or duties hereunder, it shall tender a detailed written request to the Contract Officer. Unless the Contractor receives written authorization to subcontract, assign, or delegate within 30 days, its request shall be deemed to have been denied.

If the County approves subcontracting, the Contractor shall maintain written procedures related to subcontracting, as well as copies of all subcontracts and records related to subcontracts. The County, in its sole discretion, in writing may: (a) require the Contractor to amend its subcontracting procedures as they relate to this contract; (b) prohibit the Contractor from subcontracting with a particular person or entity; or (c) require the Contractor to rescind or amend a subcontract.

4. Independent Contractor

The Contractor's services shall be furnished by the Contractor as an independent Contractor and nothing herein shall be construed to create a relationship of agent, employee, or servant of the County. The Contractor specifically has the right to direct and control Contractor's own activities in providing the agreed services in accordance with the specifications set out in this contract.

The Contractor shall have and maintain complete responsibility and control over all of its subcontractors, employees, agents, and representatives. No subcontractor, employee, agent, or representative of the Contractor shall be or deem to be or act or purport to act as an employee, agent, or representative of the County.

The Contractor shall assume full responsibility for the payment of all payroll taxes, use, sales, income, or other form of taxes, fees, licenses, excises, or payments required by any city, county, state or federal legislation which is now or may during the term of this contract be enacted as to all employees, agents or representatives of the Contractor and as to all duties, activities, and requirements by the Contractor in performance of the work on this project.

The Contractor shall assume full responsibility for ensuring all staff members hired or subcontracted under this contract are eligible to work according to all applicable state and federal laws.

5. No Guarantee of Employment

The performance of all or part of this contract by the Contractor shall not operate to vest any employment rights whatsoever and shall not be deemed to guarantee an employment of the Contractor or any employee, agent or representative of the Contractor or any subcontractor, or any employee, agent or representative of any subcontractor by the County at the present time or in the futures.

6. Taxes

The Contractor understands and acknowledges that the County will not withhold federal or state income taxes. Where required by state or federal law, the Contractor authorizes the County to make withholding for any taxes other than income taxes. All compensation received by the Contractor will be reported to the Internal Revenue Service and Washington State Department of Revenue in accordance with federal and state regulations. The Contractor is solely liable for any tax obligation arising from the Contractor's performance of this contract. The Contractor hereby agrees to indemnify the County against any demand to pay taxes arising from the Contractor's failure to pay taxes on compensation earned pursuant to this contract.

The County will pay sales and use taxes imposed on goods and services acquired hereunder as required by law. The Contractor shall pay all other taxes including, but not limited to, Business and Occupation Tax, taxes based on the Contractor's gross or net income, or personal property to which the County does not hold title. The County is exempt from Federal Excise Tax.

7. Regulations and Requirements

This contract shall be subject to all laws, rules, and regulations of the United States of America, the State of Washington, and political subdivisions of the State of Washington, and to any other provisions set forth in Special Terms and Conditions.

8. Public Records Law

The Contractor shall assist the County in fulfilling all obligations of the County under the Washington Public Records Act (chapter 42.56 of the Revised Code of Washington). In the event that the Contractor fails to fulfill its obligations pursuant to this section and due in whole or in part to such failure a court of competent jurisdiction imposes a penalty upon the County for violation of the Public Records Act, Contractor shall indemnify the County for that penalty, as well as for all costs and attorney fees incurred by the County in the litigation

giving rise to such a penalty. The obligations created by this section shall survive the termination of this contract.

9. Nondiscrimination

The Contractor or any employee, agent or representative of the Contractor or any subcontractor shall not discriminate against any person in the performance of this contract in the performance of any of its obligations hereunder on the basis of race, color, creed, ethnicity, religion, national origin, age, sex, marital status, veteran or military status, sexual orientation or the presence of any disability. Implementation of this provision shall be consistent with Section 49.60.400 of the Revised Code of Washington.

The Contractor must comply with the American with Disabilities Act of 1990, Public Law 101-336, including but not limited to protection to individuals with disabilities in the areas of employment, public accommodations, state and local government services, and telecommunications.

10. Political Activity Prohibited

None of the funds provided under this contract shall be used for any partisan political activity, or to further the election or defeat of any candidate for public office or ballot measure. However, no person engaged to perform such services pursuant to this contract shall be precluded from devoting income derived from such services to any lawful political activity, or to the support of a candidate for public office or of a ballot measure.

11. Right to Review

This contract is subject to review by any federal or state auditor. The County or its designee shall have the right to review and monitor the financial and service components of this contract by whatever means are deemed expedient by the Contract Officer. Such review may occur with or without notice and may include, but is not limited to, on-site inspection by County agents or employees, inspection of all records or other materials which the County deems pertinent to the contract and its performance, and any and all communications with or evaluations by service recipients under this contract.

12. Modifications

Either the County or the Contractor may request changes or modifications to the contract. Any and all agreed changes or modifications shall be in writing, signed by each of the parties.

13. Termination

Either party may terminate this contract upon 30 days' prior written notification to the other party. If this contract is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this contract prior to the effective date of termination.

14. Termination for Default

If the Contractor defaults by failing to perform any of the obligations of this contract or becomes insolvent, or is declared bankrupt or commits any act of bankruptcy or insolvency or makes an assignment for the benefit of creditors, the County may, by depositing written

notice to the Contractor in the U.S. mail, postage prepaid, terminate the contract, and at the County's option, obtain performance of the work elsewhere.

Any extra cost of damage to the County resulting from such default(s) shall be deducted from any money due or coming to the Contractor. Any remaining deficiency shall be payable to the County by the Contractor. The Contractor shall bear any extra expenses incurred by the County in completing the work, as may be applicable under [Exhibit A](#), including all increased costs for completing the work, and all damage sustained, or which may be sustained by the County by reason of such default.

If notice of termination for default has been issued and it is later determined for any reason that the Contractor was not in default, the rights and obligations of the parties shall be the same as if the notice of termination had been issued pursuant to the Termination for Public Convenience paragraph hereof.

15. Termination for Public Convenience

The County may terminate the contract in whole or in part whenever the County determines, in its sole discretion that such termination is in the interests of the County. Whenever the contract is terminated in accordance with this paragraph, the Contractor shall be entitled to payment for actual work performed at unit contract prices for completed items of work. The County shall make a reasonable, equitable adjustment in the contract price for partially completed items of work, but such adjustment shall not include provision for loss of anticipated profit on deleted or uncompleted work. Termination of this contract by the County at any time during the term, whether for default or convenience, shall not constitute a breach of contract by the County.

16. Suspension of Performance and Resumption of Performance

In the event of government closure, suspension or limitation of funding in any way after the effective date of this contract and prior to normal completion, the County may give notice to the Contractor to suspend performance as an alternative to termination. The County may elect to give written notice to the Contractor to suspend performance when the County determines that there is a reasonable likelihood that the funding insufficiency may be resolved in a timeframe that would allow performance to be resumed prior to the end date of this contract. Notice may include notice by facsimile or email to the Contractor's Representative. The Contractor shall suspend performance on the date stated in the written notice to suspend. During the period of suspension of performance, each party may inform the other of any conditions that may reasonably affect the potential for resumption of performance. Notice may be contingent upon the occurrence or non-occurrence of a future event; *e.g.* the failure of the State of Washington to pass a budget by a date specified in the notice.

When the County determines that the funding insufficiency is resolved, the County may give the Contractor written notice to resume performance and a proposed date to resume performance. Upon receipt of written notice to resume performance, the Contractor will give written notice to the County as to whether it can resume performance, and, if so, the date upon which it agrees to resume performance. If the Contractor gives notice to the County that it cannot resume performance, the parties agree that the contract will be terminated retroactive to the original date of suspension of performance. If the date the Contractor gives

notice it can resume performance is not acceptable to the County, the parties agree to discuss an alternative acceptable date. If an alternative date is not acceptable to the County, the parties agree that the contract will be terminated retroactive to the original date of suspension of performance.

If the funding issue is not resolved, the County may terminate the contract under the “Termination for Convenience” clause.

17. Termination Procedures

After receipt of a notice of termination, except as otherwise directed by the County, the Contractor shall:

- i. Stop work under the contract on the date and to the extent specified in the notice;
- ii. Place no further orders or subcontracts for materials, services, or facilities related to the contract;
- iii. Assign to the County all of the rights, title, and interest of the contractor under the orders and subcontracts so terminated, in which case the County has the right, at its discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts. Any attempt by the Contractor to settle such claims must have the prior written approval of the County; and
- iv. Preserve and transfer any materials, contract deliverables and/or County property in the Contractor’s possession as directed by the County.

Contractor shall not place extraordinary orders or subcontracts in anticipation of receiving a notice of termination, so as to circumvent section 17 (ii).

Upon termination, the County may withhold any amount due as the County reasonably determines is necessary to protect the County against potential loss or liability resulting from the termination. The County shall pay any withheld amount to the Contractor if the county later determines that loss or liability will not occur.

The rights and remedies of the County under this section are in addition to any other rights and remedies provided under this contract or otherwise provided under law.

18. Defense and Indemnity Agreement

The Contractor shall defend, protect, and hold harmless the County or any officers or employees thereof, from and against all claims, suits, or action arising from any intentional or negligent act or omission of the Contractor or any employee, agent or representative of the Contractor or any subcontractor, while performing under the terms of this contract.

19. Insurance Coverage

The Contractor shall comply with all provisions described in [Exhibit C](#): Insurance Coverage, attached hereto.

20. Resolution of Conflicts

In the event of an inconsistency in this contract, unless otherwise provided herein, the inconsistency shall be resolved by giving precedence in the following order:

- i. Applicable federal and state statutes and regulations
- ii. Special terms and conditions

- iii. Exhibits
- iv. General terms and conditions
- v. Any other provision of this contract whether incorporated by reference or otherwise.

21. Disputes, Venue and Choice of Law

The County and the Contractor agree that any disputes that arise under or relating to this contract that cannot be resolved to the satisfaction of both parties shall be submitted to mediation before either party starts litigation in any form. An impartial third party acceptable to both the County and the Contractor will be appointed to mediate. Should the parties be unable to agree upon a mediator, then the dispute shall be mediated through the Washington Arbitration and Mediation Service, at its Tacoma office, and in accordance with the WAMS mediation rules. The County and the Contractor shall pay an equal percentage of the mediator's fees and expenses. The Contractor may not use any funds received under this contract to pay mediator's fees and expenses. The mediation shall be confidential in all respects, as allowed or required by law.

In the event that mediation does not resolve the dispute, the venue for any litigation arising under or relating to this contract shall be in the courts of the State of Washington in and for the County of Lewis. This contract shall be governed by the laws of the State of Washington, excepting only the choice of law rules of the State of Washington.

22. Records Maintenance

The Contractor shall maintain all books, records, documents, data and other evidence relating to this contract and performance of the services described herein, including but not limited to, accounting procedures and practices which sufficiently and properly reflect all direct and indirect costs of any nature expended in the performance of this contract. Contractor shall retain such records for a period of seven (7) years following the date of final payment.

If any litigation, claim or audit is started before the expiration of the seven- (7) year period, the records shall be retained for a period of seven (7) years after all litigation, claims, or audit findings involving the records have been finally resolved.

23. Contractor Commitments, Warranties and Representations

Any written commitment received from the Contractor concerning this contract shall be binding on the Contractor, unless otherwise specifically provided herein with reference to this paragraph. Failure of the Contractor to fulfill such a commitment shall render the Contractor liable for damages to the County. A commitment includes, but is not limited to, any representation made prior to execution of this contract, whether or not incorporated elsewhere herein by reference, as to performance of services or equipment, process, Contractor's qualifications or experience, or options for future acquisition to remain in effect for a fixed period or warranties.

24. Recapture

In the event that the Contractor fails to perform services specified in this contract in accordance with state laws, federal laws, and/or the provisions of this contract, the County reserves the right to recapture funds in an amount required to compensate the County for the noncompliance in addition to any other remedies available at law or in equity. Repayment

by the Contractor or refunds under this recapture provision shall occur within the timeframe specified by the County. In the alternative, the County may recapture such funds from payments due under this contract.

25. Patent/Copyright Infringement

Contractor will defend and indemnify the County from any claimed action, cause or demand brought against the County, to the extent such action is based on the claim that information, goods or documentation supplied by the Contractor infringes any patent or copyright. Contractor will pay all costs, penalties, fees, and damages attributable to any such claims that are finally awarded against the County in any action. Such defense and payments are conditioned upon the following:

- i. That Contractor shall be notified promptly in writing by the County of any notice of such claim.
- ii. Contractor shall have the right, hereunder, at its option and expense, to obtain for the County the right to continue using the information in the event such claim of infringement is made, provided no reduction in performance or loss results to the County.

26. Ownership and Use of Items Produced

Material produced in the performance of the work under this contract shall be “works made for hire” as defined by section 201(b) the U.S. Copyright Act of 1976 and shall be owned by the County. This material includes, but is not limited to, books, computer programs, plans, specifications, documents, films, pamphlets, reports, sound reproductions, studies, surveys, tapes, and/or training materials. County ownership includes the right to copyright, patent, register, and the ability to transfer these rights. All writings, programs, data, public records or other materials prepared by the Contractor or any employee, agent or representative of the Contractor or any subcontractor, in connection with the performance of this contract shall be for mutual use and shared between the Contractor and the County. The County agrees that if it uses any materials prepared by the Contractor for purposes other than those intended by this contract, it does so at its sole risk and it agrees to hold the Contractor harmless therefore to the extent such use is agreed to in writing by the Contractor.

A copy of all or a portion of material produced shall be submitted to the County upon request or at the end of the contract using the hardware, software, or other method specified by the County at the time of such request.

27. Confidentiality

The Contractor shall maintain the confidentiality of all information that is exempt from disclosure to the public or other unauthorized persons under chapter RCW Chapter 42.56 or other federal or state laws (“Confidential Information”) provided by the County or acquired by the Contractor in performance of this contract. The parties agree to comply with all state and federal statutes and regulations relating to Confidential Information. The County and the Contractor will limit access to the Confidential Information to the fewest number of people necessary to complete the work. Everyone having access to Confidential Information covered by this Contract, including but not limited to the Contractor’s employees, agents, representatives, or subcontractors, must agree to protect the confidentiality of the Confidential Information.

The Contractor shall not use, publish, transfer, sell or otherwise disclose any Confidential Information gained by reason of this Contract for any purpose that is not directly connected with Contractor's performance of the services contemplated hereunder, except: (1) as provided by law; (2) pursuant to an order entered by a court after having acquired jurisdiction over the County or (3) upon prior written consent of the Lewis County Director of Public Health & Social Services and Lewis County Prosecuting Attorney.

The Contractor shall protect and maintain all Confidential Information gained by reason of this Contract against unauthorized use, access, disclosure, modification or loss. This duty requires the Contractor to employ reasonable security measures, which include restricting access to the Confidential Information by: (1) allowing access only to staff that have an authorized business requirement to view the Confidential Information; (2) physically securing any computers, documents, or other media containing the Confidential Information; (3) ensuring the security of Confidential Information transmitted via fax (facsimile) by verifying the recipient phone number to prevent accidental transmittal of Confidential Information to unauthorized persons, communicating with the intended recipient before transmission to ensure that the fax will be received only by an authorized person and verifying after transmittal that the fax was received by the intended recipient; (4) encrypting email and/or email attachments that contain the Confidential Information; (5) encrypting Confidential Information when it is stored on portable devices or media, including but not limited to laptop computers and flash memory devices; or (6) sending paper documents containing Confidential Information via a trusted system approved by the County.

Upon request by the County, at the end of the Contract term, or when no longer needed, Confidential Information shall be returned to the County or Contractor shall certify in writing that they employed a County approved method to destroy the information in a manner that cannot be reconstructed.

Paper documents with Confidential Information may be recycled through a contracted firm, provided the contract with the recycler specifies that the confidentiality of information will be protected, and the information destroyed through the recycling process. Paper documents containing Confidential Information requiring special handling (e.g. protected health information) must be destroyed on-site through shredding, pulping, or incineration.

If the Contractor becomes aware of an actual or suspected breach of confidentiality, the Contractor will promptly notify the Contract Coordinator for the County of the facts. The Contractor will work within its organizations to take any steps necessary to determine the scope of the breach and to restore reasonable security to the Confidential Information. Both parties agree to mitigate any known harmful effects of a breach in confidentiality, including notifying affected individuals to the extent required by law. The parties will also reasonably cooperate with law enforcement as appropriate.

Contractor shall immediately give County notice of any judicial proceeding seeking disclosure of Confidential Information. Contractor shall indemnify and hold harmless the County, its officials, agents or employees from all loss or expense, including, but not limited to, settlements, judgments, setoffs, attorney's fees, and costs resulting from Contractor's breach of this provision.

28. Ethics/Conflicts of Interest

In performing under this contract, the Contractor shall assure compliance with the Ethics in Public Service Act (Chapter 42.52 Revised Code of Washington), and any other applicable state or federal law related to ethics or conflicts of interest.

29. Information System Security

The Contractor shall protect and maintain all confidential information gained by reason of this contract against unauthorized use, access, disclosure, modification or loss. Personal and/or medical information collected, used or acquired in connection with this contract shall be used solely for the purposes of this contract.

30. Protection of Personal Information

The Contractor shall not use, publish, transfer, sell or otherwise disclose any confidential information gained by reason of this contract for any purpose that is not directly connected with the Contractor's performance of the services contemplated hereunder except as provided by law, received by the Contractor pursuant to section 8 of this contract or with the prior written consent of the individual or personal representative of the individual who is the subject of the personal information. Upon request by the County or at the end of the contract term, or when no longer needed, the Contractor shall return the confidential information or certify in writing that they employed a County approved method to destroy the information in a manner that cannot be reconstructed.

31. Certification of Work

All work submitted by the Contractor shall be certified by the Contractor and checked for errors and omissions. The Contractor shall be responsible for the accuracy of the work, even if the work is accepted by the County.

32. Contract Amendments

No amendment, modification or renewal shall be made to this contract unless set forth in a written Contract Amendment, signed by both parties. Work under a Contract Amendment shall not proceed until the County duly executes the Contract Amendment.

33. Notice

Except as set forth elsewhere in the contract, for all purposes under this contract, except service of process, notice shall be given by the Contractor to the Contract Officer, 360 NW North Street, Chehalis, WA 98532. Notice to the Contractor for all purposes under this contract will be given to the Contractor's address shown on the Signature Page attached hereto. Notices and other communications anticipated by this contract, *e.g.* a request to subcontract per section 3, may be hand-delivered by an agent of the party serving notice, delivered by courier (such as UPS or FedEx), or delivered by First Class Mail. A notice or communication hand-delivered or delivered by courier shall be deemed to be served when it is left with an officer, agent, or employee of the party to whom notice is due. A notice delivered by First Class Mail shall be deemed to be served three days (excluding Sundays and Postal Service holidays) after it is placed into a U.S. Postal Service collection box or left at a U.S. post office, providing postage has been fully prepaid.

34. Debarment Certification

The Contractor, by signature to this contract, certifies that the Contractor is not presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from participating in this contract or any program agreement by any federal, state or local government or agency or by any special district. The Contractor also agrees to include the above requirement in all subcontracts into which it enters.

35. Severability

If any term or condition of this contract or the application thereof to any person(s) or circumstances is held invalid, such invalidity shall not affect other terms, conditions or applications which can be given effect without the invalid term, condition or application. To this end, the terms and conditions of this contract are declared severable.

36. Conformance

If any provision of this contract violates any statute or rule of law of the state of Washington or of the United States of America, it is considered modified to conform to that statute or rule of law.

37. Waiver

Waiver of any breach or condition of this contract shall not be deemed a waiver of any prior or subsequent breach. No term or condition of this contract shall be held to be waived, modified or deleted except by an instrument, in writing, signed by the party granting such a waiver.

38. Survival

The terms and conditions contained in this contract will survive the completion, cancellation, termination or expiration of the contract.

39. Entire Agreement

This written contract along with attached exhibits and the documents and terms incorporated herein by section 23 of this contract, represents the entire agreement between the parties.

40. Prior Approval

The Contractor shall obtain prior written approval for purchases of items, including but not limited to gift cards, program supplies and equipment, professional development programs or trainings, and consulting fees, exceeding \$300.00. Prior approval shall be obtained via written approval from the County contract coordinator. If prior written approval is not obtained, the County may, in its sole discretion, deny reimbursement requests for the unapproved expenditure.

41. Corrective Action

If the County determines that a breach of contract has occurred, in which the Contractor has failed to comply with any terms or conditions of this Contract or the Contractor has failed to provide in any manner the work or services agreed to herein, the County may deem said breach to warrant corrective action. The following process will apply:

- a. The County will notify the Contractor in writing of the nature of the breach.

- b. The Contractor shall respond in writing within ten working days of its receipt of such notification, which response shall indicate the steps being taken to correct the specified deficiencies. The corrective action plan shall specify the proposed completion date for bringing the Contractor into contract compliance, which date shall not be more than 30 days from the date of the Contractor's response, unless the County, at its sole discretion, specifies in writing an extension in the number of days to complete the corrective actions;
- c. The County will notify the Contractor in writing of the County's determination as to the sufficiency of the Contractor's corrective action plan. The determination of sufficiency of the Contractor's corrective action plan shall be at the sole discretion of the County;
- d. In the event that the Contractor does not respond within the appropriate time with a corrective action plan, or the Contractor's corrective action plan is determined by the County to be insufficient, the County may commence termination of this contract in whole or in part pursuant to Section 14;
- e. In addition, the County may withhold any payment owed the Contractor or prohibit the Contractor from incurring additional obligations of funds until the County is satisfied that corrective action has been taken or completed; and
- f. Nothing herein shall be deemed to affect or waive any rights the parties may have pursuant to Sections 13, 14, and 15.

Special Terms and Conditions

The Schedule of State Financial Assistance must be included. The schedule includes:

- a. Contractor agency name
- b. State program name
- c. BARS account number
- d. County
- e. County Contract number
- f. Contract award amount including amendments (total Contract award)
- g. Current year expenditures

iii. If the Contractor is a state or local government entity, the Office of the State Auditor shall conduct the audit. Audits of non-profit organizations are to be conducted by a certified public accountant selected by the Contractor.

iv. The Contractor shall include the above audit requirements in any subcontracts.

v. In all cases, the Contractor's financial records must be available for review by County.

7. Future Non-Allocation of Funds

If sufficient funds are not appropriated or allocated for payment under this contract for any future fiscal period, the County will not be obligated to make payments for services or amounts incurred after the end of the current fiscal period. No penalty or expense shall accrue to the County in the event this provision applies.

8. Errors and Omissions Uncompensated

In the event of any errors or omissions by the Contractor in the performance of any work required under this contract, the Contractor shall make any and all necessary corrections without additional compensation.

Exhibit C: Insurance Coverage

The Contractor shall provide insurance coverage as set out in this Exhibit to protect the County should there be any claims, suits, actions, costs, damages or expenses arising from any loss, or negligent or intentional act or omission of the Contractor or subcontractor, or agents of either, while performing under the terms of this contract.

All required insurance shall be issued by an insurance company authorized to do business within the State of Washington. The insurance shall name the County and its agents, officers, and employees as additional insureds under the insurance policy. All policies shall be primary to any other valid and collectable insurance. The Contractor shall instruct the insurers to give the County thirty (30) calendar days advance notice of any insurance cancellation or modification.

The Contractor shall submit to the County within fifteen (15) calendar days of the Contract start date, proof of insurance identifying Lewis County as Primary, Non Contributory, additionally Insured, with endorsement(s) for additional insured as indicated below, which outlines the coverage and limits defined in this insurance section. Exhibit E: Data Security Requirements

A. Definitions

The words and phrases listed below, as used in this Exhibit, shall each have the following definitions

1. “AES” means the Advanced Encryption Standard, a specification of Federal Information Processing Standards Publications for the encryption of electronic data issued by the National Institute of Standards and Technology (<http://nvlpubs.nist.gov/nistpubs/FIPS/NIST.FIPS.197.pdf>).
2. “Authorized User(s)” means an individual or individuals with a business need to access DSHS Confidential Information, and who has or have been authorized to do so.
3. “Category 4 Data” is data that is confidential and requires special handling due to statutes or regulations that require especially strict protection of the data and from which especially serious consequences may arise in the event of any compromise of such data. For purposes of this contract, data classified as Category 4 refers to data protected by: the Health Insurance Portability and Accountability Act (HIPAA).
4. “Cloud” means data storage on servers hosted by an entity other than the Contractor and on a network outside the control of the Contractor. Physical storage of data in the cloud typically spans multiple servers and often multiple locations. Cloud storage can be divided between consumer grade storage for personal files and enterprise grade for companies and governmental entities. Examples of consumer grade storage would include iCloud, Dropbox, Box.com, and many other entities. Enterprise cloud vendors include Microsoft Azure, Amazon Web Services, O365, and Rackspace.
5. “Encrypt” means to encode Confidential Information into a format that can only be read by those possessing a “key”; a password, digital certificate or other mechanism available only to authorized users. Encryption must use a key length of at least 128 bits (256 preferred) for symmetric keys, or 2048 bits for asymmetric keys. When a symmetric key is used, the Advanced Encryption Standard (AES) must be used if available.
6. “Hardened Password” means a string of at least eight characters containing at least three of the following four character classes: Uppercase alphabetic, lowercase alphabetic, numeral, and special characters such as an asterisk, ampersand, or exclamation point.
7. “Mobile Device” means a computing device, typically smaller than a notebook, which runs a mobile operating system, such as iOS, Android, or Windows Phone. Mobile Devices include smart phones, most tablets, and other form factors.
8. “Multi-factor Authentication” means controlling access to computers and other IT resources by requiring two or more pieces of evidence that the user is who they claim to be. These pieces of evidence consist of something the user knows, such as a password or PIN; something the user has such as a key card, smart card, or physical token; and something the user is, a biometric identifier such as a fingerprint, facial scan, or retinal scan. “PIN” means a personal identification number, a series of numbers which act as a

password for a device. Since PINs are typically only four to six characters, PINs are usually used in conjunction with another factor of authentication, such as a fingerprint.

9. “Portable Device” means any computing device with a small form factor, designed to be transported from place to place. Portable devices are primarily battery powered devices with base computing resources in the form of a processor, memory, storage, and network access. Examples include, but are not limited to, mobile phones, tablets, and laptops. Mobile Device is a subset of Portable Device.
10. “Portable Media” means any machine readable media that may routinely be stored or moved independently of computing devices. Examples include magnetic tapes, optical discs (CDs or DVDs), flash memory (thumb drive) devices, external hard drives, and internal hard drives that have been removed from a computing device.
11. “Secure Area” means an area to which only authorized representatives of the entity possessing the Confidential Information have access, and access is controlled through use of a key, card key, combination lock, or comparable mechanism. Secure Areas may include buildings, rooms or locked storage containers (such as a filing cabinet or desk drawer) within a room, as long as access to the Confidential Information is not available to unauthorized personnel. In otherwise Secure Areas, such as an office with restricted access, the Data must be secured in such a way as to prevent access by non-authorized staff such as janitorial or facility security staff, when authorized Contractor staff are not present to ensure that non-authorized staff cannot access it.
12. “Trusted Network” means a network operated and maintained by the Contractor, which includes security controls sufficient to protect DSHS Data on that network. Controls would include a firewall between any other networks, access control lists on networking devices such as routers and switches, and other such mechanisms which protect the confidentiality, integrity, and availability of the Data.
13. “Unique User ID” means a string of characters that identifies a specific user and which, in conjunction with a password, passphrase or other mechanism, authenticates a user to an information system.

B. Authority

The security requirements described in this document reflect the applicable requirements of Standard 141.10 (<https://ocio.wa.gov/policies>) of the Office of the Chief Information Officer for the state of Washington, and of the DSHS Information Security Policy and Standards Manual. Reference material related to these requirements can be found here:

<https://www.dshs.wa.gov/fsa/central-contract-services/keeping-dshs-client-information-private-and-secure>, which is a site developed by the DSHS Information Security Office and hosted by DSHS Central Contracts and Legal Services.

C. Administrative Controls

The Contractor must have the following controls in place:

1. A documented security policy governing the secure use of its computer network and systems, and which defines sanctions that may be applied to Contractor staff for violating that policy.
2. If the Data shared under this agreement is classified as Category 4 data, the Contractor must be aware of and compliant with the applicable legal or regulatory requirements for that Category 4 Data.
3. If Confidential Information shared under this agreement is classified as Category 4 data, the Contractor must have a documented risk assessment for the system(s) housing the Category 4 Data.

D. Authorization, Authentication, and Access

In order to ensure that access to the Data is limited to authorized staff, the Contractor must:

1. Have documented policies and procedures governing access to systems with the shared Data.
2. Restrict access through administrative, physical, and technical controls to authorized staff.
3. Ensure that user accounts are unique and that any given user account logon ID and password combination is known only to the one employee to whom that account is assigned. For purposes of non-repudiation, it must always be possible to determine which employee performed a given action on a system housing the Data based solely on the logon ID used to perform the action.
4. Ensure that only authorized users are capable of accessing the Data.
5. Ensure that an employee's access to the Data is removed immediately:
 - a. Upon suspected compromise of the user credentials.
 - b. When their employment, or the contract under which the Data is made available to them, is terminated.
 - c. When they no longer need access to the Data to fulfill the requirements of the contract.
6. Have a process to periodically review and verify that only authorized users have access to systems containing DSHS Confidential Information.
7. When accessing the Data from within the Contractor's network (the Data stays within the Contractor's network at all times), enforce password and logon requirements for users within the Contractor's network, including:
 - a. A minimum length of 8 characters, and containing at least three of the following character classes: uppercase letters, lowercase letters, numerals, and special characters such as an asterisk, ampersand, or exclamation point.

- b. That a password does not contain a user's name, logon ID, or any form of their full name.
 - c. That a password does not consist of a single dictionary word. A password may be formed as a passphrase, which consists of multiple dictionary words.
 - d. That passwords are significantly different from the previous four passwords.
8. When accessing Confidential Information from an external location (the Data will traverse the Internet or otherwise travel outside the Contractor's network), mitigate risk and enforce password and logon requirements for users by employing measures including:
 - a. Ensuring mitigations applied to the system do not allow end-user modification.
 - b. Not allowing the use of dial-up connections.
 - c. Using industry standard protocols and solutions for remote access. Examples include, but are not limited to RADIUS) and Citrix.
 - d. Encrypting all remote access traffic from the external workstation to Trusted Network or to a component within the Trusted Network. The traffic must be encrypted at all times while traversing any network, including the Internet, which is not a Trusted Network.
 - e. Ensuring that the remote access system prompts for re-authentication or performs automated session termination after no more than 30 minutes of inactivity.
 - f. Ensuring use of Multi-factor Authentication to connect from the external end point to the internal end point.
9. Passwords or PIN codes may meet a lesser standard if used in conjunction with another authentication mechanism, such as a biometric (fingerprint, face recognition, iris scan) or token (software, hardware, smart card, etc.) in that case:
 - a. The PIN or password must be at least 5 letters or numbers when used in conjunction with at least one other authentication factor
 - b. Must not be comprised of all the same letter or number (11111, 22222, aaaaa, would not be acceptable)
 - c. Must not contain a "run" of three or more consecutive numbers (12398, 98743 would not be acceptable)
10. If the contract specifically allows for the storage of Confidential Information on a Mobile Device, passcodes used on the device must:
 - a. Be a minimum of six alphanumeric characters.
 - b. Contain at least three unique character classes (upper case, lower case, letter, number).
 - c. Not contain more than a three consecutive character run. Passcodes consisting of 12345, or abcd12 would not be acceptable.
11. Render the device unusable after a maximum of 10 failed logon attempts.

E. Protection of Data

The Contractor agrees to store Data on one or more of the following media and protect the Data as described:

1. **Hard disk drives.** For Data stored on local workstation hard disks, access to the Data will be restricted to Authorized User(s) by requiring logon to the local workstation using a Unique User ID and Hardened Password or other authentication mechanisms which provide equal or greater security, such as biometrics or smart cards.
2. **Network server disks.** For Data stored on hard disks mounted on network servers and made available through shared folders, access to the Data will be restricted to Authorized Users through the use of access control lists which will grant access only after the Authorized User has authenticated to the network using a Unique User ID and Hardened Password or other authentication mechanisms which provide equal or greater security, such as biometrics or smart cards. Data on disks mounted to such servers must be located in an area which is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.

For DSHS Confidential Information stored on these disks, deleting unneeded Data is sufficient as long as the disks remain in a Secure Area and otherwise meet the requirements listed in the above paragraph. Destruction of the Data, as outlined below in Section 8 Data Disposition, may be deferred until the disks are retired, replaced, or otherwise taken out of the Secure Area.

3. **Optical discs (CDs or DVDs) in local workstation optical disc drives.** Data provided by DSHS on optical discs which will be used in local workstation optical disc drives and which will not be transported out of a Secure Area. When not in use for the contracted purpose, such discs must be Stored in a Secure Area. Workstations which access DSHS Data on optical discs must be located in an area which is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.
4. **Optical discs (CDs or DVDs) in drives or jukeboxes attached to servers.** Data provided by DSHS on optical discs which will be attached to network servers and which will not be transported out of a Secure Area. Access to Data on these discs will be restricted to Authorized Users through the use of access control lists which will grant access only after the Authorized User has authenticated to the network using a Unique User ID and Hardened Password or other authentication mechanisms which provide equal or greater security, such as biometrics or smart cards. Data on discs attached to such servers must be located in an area which is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.
5. **Paper documents.** Any paper records must be protected by storing the records in a Secure Area which is only accessible to authorized personnel. When not in use, such records must be stored in a Secure Area.

6. **Remote Access.** Access to and use of the Data over the State Governmental Network (SGN) or Secure Access Washington (SAW) will be controlled by DSHS staff who will issue authentication credentials (e.g. a Unique User ID and Hardened Password) to Authorized Users on Contractor's staff. Contractor will notify DSHS staff immediately whenever an Authorized User in possession of such credentials is terminated or otherwise leaves the employ of the Contractor, and whenever an Authorized User's duties change such that the Authorized User no longer requires access to perform work for this Contract.
7. **Data storage on portable devices or media**
- a. Except where otherwise specified herein, DSHS Data shall not be stored by the Contractor on portable devices or media unless specifically authorized within the terms and conditions of the Contract. If so authorized, the Data shall be given the following protections:
 - i. Encrypt the Data.
 - ii. Control access to devices with a Unique User ID and Hardened Password or stronger authentication method such as a physical token or biometrics.
 - iii. Manually lock devices whenever they are left unattended and set devices to lock automatically after a period of inactivity, if this feature is available. Maximum period of inactivity is 20 minutes.
 - iv. Apply administrative and physical security controls to Portable Devices and Portable Media by:
 - (1) Keeping them in a Secure Area when not in use,
 - (2) Using check-in/check-out procedures when they are shared, and
 - (3) Taking frequent inventories.
 - b. When being transported outside of a Secure Area, Portable Devices and Portable Media with DSHS Confidential Information must be under the physical control of Contractor staff with authorization to access the Data, even if the Data is encrypted.
8. **Data stored for backup purposes.**
- a. DSHS Confidential Information may be stored on Portable Media as part of a Contractor's existing, documented backup process for business continuity or disaster recovery purposes. Such storage is authorized until such time as that media would be reused during the course of normal backup operations. If backup media is retired while DSHS Confidential Information still exists upon it, such media will be destroyed at that time in accordance with the disposition requirements below in Section 8 *Data Disposition*.
 - b. Data may be stored on non-portable media (e.g. Storage Area Network drives, virtual media, etc.) as part of a Contractor's existing, documented backup process for business continuity or disaster recovery purposes. If so, such media will be protected as otherwise described in this exhibit. If this media is retired while DSHS Confidential Information still exists upon it, the data will be destroyed at that time in accordance with the disposition requirements below in Section 8 *Data Disposition*.
9. **Cloud storage**
- DSHS Confidential Information requires protections equal to or greater than those specified elsewhere within this exhibit. Cloud storage of Data is problematic as neither

DSHS nor the Contractor has control of the environment in which the Data is stored. For this reason:

- a. DSHS Data will not be stored in any consumer grade Cloud solution, unless all of the following conditions are met:
 - i. Contractor has written procedures in place governing use of the Cloud storage and Contractor attest to the contact listed in the contract and keep a copy of that attestation for your records in writing that all such procedures will be uniformly followed.
 - ii. The Data will be Encrypted while within the Contractor network.
 - iii. The Data will remain Encrypted during transmission to the Cloud.
 - iv. The Data will remain Encrypted at all times while residing within the Cloud storage solution.
 - v. The Contractor will possess a decryption key for the Data, and the decryption key will be possessed only by the Contractor.
 - vi. The Data will not be downloaded to non-authorized systems, meaning systems that are not on the contractor network.
 - vii. The Data will not be decrypted until downloaded onto a computer within the control of an Authorized User and within the contractor's network.
- b. Data will not be stored on an Enterprise Cloud storage solution unless either:
 - i. The Cloud storage provider is treated as any other Sub-Contractor, and agrees in writing to all of the requirements within this exhibit; or,
 - ii. The Cloud storage solution used is HIPAA compliant.
- c. If the Data includes protected health information covered by the Health Insurance Portability and Accountability Act (HIPAA), the Cloud provider must sign a Business Associate Agreement prior to Data being stored in their Cloud solution.

F. System Protection

To prevent compromise of systems which contain DSHS Data or through which that Data passes:

- a. Systems containing DSHS Data must have all security patches or hotfixes applied within 3 months of being made available.
- b. The Contractor will have a method of ensuring that the requisite patches and hotfixes have been applied within the required timeframes.
- c. Systems containing DSHS Data shall have an Anti-Malware application, if available, installed.
- d. Anti-Malware software shall be kept up to date. The product, its anti-virus engine, and any malware database the system uses, will be no more than one update behind current.

7. Data Segregation

- a. DSHS category 4 data must be segregated or otherwise distinguishable from non-DSHS data. This is to ensure that when no longer needed by the Contractor, all DSHS Data can be identified for return or destruction. It also aids in determining whether DSHS Data has or may have been compromised in the event of a security breach. As such, one or more of the following methods will be used for data segregation:

- i. DSHS Data will be kept on media (e.g. hard disk, optical disc, tape, etc.) which will contain no non-DSHS Data.
 - ii. DSHS Data will be stored in a logical container on electronic media, such as a partition or folder dedicated to DSHS Data.
 - iii. DSHS Data will be stored in a database which will contain no non-DSHS data.
And/or,
 - iv. DSHS Data will be stored within a database and will be distinguishable from non-DSHS data by the value of a specific field or fields within database records.
 - v. When stored as physical paper documents, DSHS Data will be physically segregated from non-DSHS data in a drawer, folder, or other container.
- b. When it is not feasible or practical to segregate DSHS Data from non-DSHS data, then both the DSHS Data and the non-DSHS data with which it is commingled must be protected as described in this exhibit.

8. Data Disposition

When the contracted work has been completed or when the DSHS Data is no longer needed, except as noted above in Section 5.b, DSHS Data shall be returned to DSHS or destroyed. Media on which Data may be stored and associated acceptable methods of destruction are as follows:

Data stored on:	Will be destroyed by:
Server or workstation hard disks, or Removable media (e.g. floppies, USB flash drives, portable hard disks) excluding optical discs	Using a “wipe” utility which will overwrite the Data at least three (3) times using either random or single character data, or Degaussing sufficiently to ensure that the Data cannot be reconstructed, or Physically destroying the disk
Paper documents with sensitive or Confidential Information	Recycling through a contracted firm, provided the contract with the recycler assures that the confidentiality of Data will be protected.
Paper documents containing Confidential Information requiring special handling (e.g. protected health information)	On-site shredding, pulping, incineration, or contractor
Optical discs (e.g. CDs or DVDs)	Incineration, shredding, or completely defacing the readable surface with a coarse abrasive
Magnetic tape	Degaussing, incinerating or crosscut shredding

9. Notification of Compromise or Potential Compromise

The compromise or potential compromise of DSHS shared Data must be reported to the DSHS Contact designated in the Contract within one (1) business day of discovery. If no DSHS Contact is designated in the Contract, then the notification must be reported to the DSHS Privacy Officer at dshsprivacyofficer@dshs.wa.gov. Contractor must also take actions to mitigate the risk of loss and comply with any notification or other requirements imposed by law or DSHS.

10. Data shared with Subcontractors

If DSHS Data provided under this Contract is to be shared with a subcontractor, the Contract with the subcontractor must include all of the data security provisions within this Contract and within any amendments, attachments, or exhibits within this Contract. If the Contractor cannot protect the Data as articulated within this Contract, then the contract with the subcontractor must be submitted to the DSHS Contact specified for this contract for review and approval.
