2. Please add a brief description of your background and why you are interested in seeking an appointment to the Lewis County Noxious Weed Board.

I have been in the vegetation management business my whole life. My father was a contractor in Lewis County and taught me the importance of controlling noxious and invasive weeds. After my father passed away in 2012, I started my own vegetation management company. I think it is important to educate the public on the importance of treating noxious weeds and everyone should do their part. If they are unable to, I believe there should be resources available to help those who need it.

3. Signatures of registered voters within my weed control district.
