A photograph of a forest clearing. In the center, a white survey stake is visible, marked with a red 'X'. An orange oval highlights the stake, and an orange arrow points from a text box below to it. The text box contains the text 'Stake #3' and 'Center of 60' ROW'. The ground is covered with dry leaves, twigs, and some green vegetation. In the background, there are several trees with light-colored bark, possibly birches, and a dense canopy of green leaves.
